

## ACCESS STATEMENT

### TED CONEY'S FAMILY PORTRAITS

The attraction offers eight tours, which takes visitors all over this 300 year old listed cottage. As this includes climbing some very steep stairs, one tour has been devised so that visitors can remain on the ground floor.

As with all tours to the house, this needs to be booked, at least the evening before. At that time, the visitor can also book the one available parking space, which is just near the entrance. ( all other visitors can park in a free, public car park within walking distance)

On request, a disabled ramp can be erected, so that wheelchair access is available into the house.
